OFFICIAL VACANCIES FILLED

Since our last issue, the long expected has come to pass with the filling of three vacancies caused through dismissal of three married (family) officials by the appointment of bachelors. At a special meeting of the town council last week end, the following appointments were made: Joseph Fitzpatrick, chief of police; Gaston Bazzle, electrician; George Manquet, fire chief.

Bazzle, before leaving Blairmore for the west, was local organizer for the Young Communists. He was called back from Penticton to fill the position, in spite of the fact that difficulty was being experienced in absorbing local unemployed married and unmarried men. (Discrimination).

At the regular meeting of the council on Monday night, the mayor and all councillors and acting-secretary Jones were present. There was also present the usual array of spectators, the majority of whom had no business there whatever.

Councillor Evans asked why he had not been notified in sufficient time to allow him to attend the special meeting on Saturday, when the selection of officials was made. He realized that some error had occurred, for his notice was placed in the wrong envelope. Anyway, he was asked by the mayor, what difference would it have made had he been there? (Operation, no one thinks!). And the council endorsed the mayor's "No."

Mayor Knight followed, as far as he was concerned; the appointments were made some time ago. Evans then asked why certain applications were not read in the council chamber, to which the mayor and certain members of the council placed their denial.

Evans asked why application from Montalbetti, Coleman, for position as electrician was not read. Mayor replied that the application was received and answered by himself. Councillor Evans claimed the mayor had no right to take such responsibility upon himself, and that after stating to Montalbetti that a local man would be selected for the position, why was it necessary to import a man from Penticton, who had opportunities for work in that part of the country?

Numerous requests were received from parties desirous to make use of vacant lots for gardening purposes, and upon motion it was decided that available lots be offered free for such purpose, not more than three to each person applying, lots to be cultivated, and if sold by the town while in crop, the gardener be required to vacate immediately.

A number of applications for relief were handed to committee for consideration, pending arrival of Mr. McKenzie, of the relief department, Edmonton.

Upon motion by Councillor Olsen, it was decided to license police dogs, five dollars for males, ten bucks for the opposition.

Accounts passed totalled \$2,160.00, made up mostly of relief and scrip.

A requisition for \$24,000 was received from the Board of School Trustees. This amount, they claimed, with the government grant, was required to tide the educational institution through the fiscal year.

Upon motion, the electrician was bonded in the sum of \$1000.

The unemployed, through their spokesman, Dan Mills, asked that the relief work pay be raised from thirty to fifty cents an hour. His appeal was granted in the absence of Councillor Evans, who had retired.

Upon receipt of word that Manquet had been appointed fire chief, the entire old group of firemen resigned.

Wanted: Anyone to suggest a bill legislation than that of the Alberta government requiring a three-dollar filing fee for income tax returns. We know of one young lady, at least, who has tax due amounted to 13 cents, but who had to remit \$3.13.

COMMUNITY SHOCKED

BY SUDDEN DEATH

The death of Mrs. David Oliver, at about 5 o'clock on Monday morning, came as a great shock to the people of Blairmore, where she had resided for a number of years.

The end came following but a five or six-day illness.

Mrs. Oliver, formerly Marguerite Wiswell, was but twenty-five years of age. Her marriage to Mr. Oliver took place in Calgary about four years ago. During the past two or three years, Mrs. Oliver has been active in young people's and Sunday school work in connection with the United church, and her place in that world will be difficult to fill.

She is survived by her mother and brother, Mrs. Nora Wiswell and Mr. Byron Wiswell, Deary, Idaho; and a sister, Mrs. Alex May, in Blairmore.

The remains were laid to rest on Wednesday afternoon in the local Union cemetery, following service conducted at the United church by the Rev. A. E. Larke. During the service, and following an aisle discourse by the pastor, Mr. and Mrs. Larke rendered a very appropriate duet.

The remains were followed to the graveside by a large concourse of citizens, led by a group of eighteen girls from her Sunday school class, each bearing a spray of flowers. The pall bearers were W. Johnson, E. A. Harper, A. Velprava, Harvey Carmichael, S. McDowell and Roland Pinkney.

Funeral arrangements were in charge of the Crownest Undertaking Co.

Floral tributes were many and beautiful, including the following:

Pillow-Husband; wreaths—Mother, Byron, Alex, and Mildred; William and Anna Oliver and family, Mr. and Mrs. Sam Ennis and family, D. McNaught, Mrs. F. M. Pinkney and Roland, Mr. and Mrs. Walter H. Byers, Jim, Murray and Ralph, Rose, Alberta; Sunday School Girls, R. Fumagalli and family, C. Minuzzi and family, Sprays—Laurie and Vina Byers, Camrose, Alberta; Miss Emma Kidd, Mr. W. Goddard, Mr. and Mrs. H. Sommers, Mr. and Mrs. D. Kemp and Agnes, Mr. and Mrs. George Brown and family, Mr. and Mrs. H. Carmichael, Mr. and Mrs. H. Congdon, Mr. and Mrs. Robert Oakes, Mr. and Mrs. D. Emery, Mr. and Mrs. Marshall Hamilton and family, Mr. and Mrs. D. R. McKay, Mr. and Mrs. G. A. Passmore and family, Mr. and Mrs. Gordon Steeves, Mr. and Mrs. L. P. Robert, Mr. and Mrs. Jack Patterson and family, Mr. and Mrs. C. J. Tompkins and family, Mr. and Mrs. M. L. McKinnon, Blairmore I.O. F.O. Lodge, Mr. and Mrs. E. A. Harper, Mr. and Mrs. W. S. Scott, Mr. and Mrs. Ed. Womersley, Mr. and Mrs. A. E. Ferguson, Mr. and Mrs. W. L. Evans, Mr. and Mrs. J. A. Kerr, Mr. and Mrs. Charles Tabor (Lethbridge), Mr. and Mrs. Ross Tucker, Mr. and Mrs. Alf. Womersley, Mr. and Mrs. R. Jamieson, Mr. and Mrs. E. Morgan, Mr. and Mrs. D. A. Howe and family, Roach and Nettie, Mr. and Mrs. J. Shafer, S. McDowell, Ernie, Fred and Alex, Ladies' Aid United church, Mrs. and Mrs. Hartley Ugham, Dr. and Mrs. R. K. Lillie, Mrs. S. McKay and the boys, Mr. and Mrs. J. B. Harmer and family, Mr. R. Gray, Philomath C.G.I.T. Group, Mr. and Mrs. H. A. Moore and family, Mr. and Mrs. H. Mansen, Mr. and Mrs. J. Rudd, Mr. and Mrs. J. R. Warner and family, Mr. and Mrs. W. H. Chappell and family, Mr. and Mrs. Leslie McDonald (Bellevue), Mr. and Mrs. F. M. Thompson and family, Mr. C. Rae (Bellevue), Mr. and Mrs. H. Zak and family, Mr. and Mrs. J. Angus McDonald and family, Mr. and Mrs. Paul Barstelli.

Outside friends in attendance at the funeral included: Ralph Pridham, Joseph Bell, Mrs. Glass, Joe and Stanley Glass, Pincher Creek; George Mowat, Cowley; Mrs. Wiswell and

LET'S GO SKI-ING

If you're a ski-er—and everyone

who can stand upright in skis is that at heart—you've a thrill awaiting you in the Associated Screen News' newest Canadian Sport Chat, "Let's Go Ski-ing," arranged by Gordon Sparling, and told by Corey Thomson.

Commencing with a lively comment on the sport itself, and its popularity with every age, and estate of man—take them then in person to Banff National Park.

At the foot of Deception Pass stands a tiny log cabin, where four schemers—desperate men on their skis, plot to make the hair-raising nine-thousand-foot descent of Deception Pass.

You see them climb the dizzy height—snatch a cold lunch at the summit—and careening madly down through the lonely acres of deep, drifting snow, amid thrills that only the picture can describe. What a run! What a nerve! But see it for yourself in "Let's Go Ski-ing," at

WORLD HAPPENINGS BRIEFLY TOLD

The famous international horse show in London, has been abandoned for this year.

A record, probably without parallel in the Dominion, is one held by Guelph, Ontario, where not a single motor fatality occurred within the city limits during 1932.

Employing 45 men, camp No. 3, owned by P. Bain, logging operator of Dewdney, B.C., has re-opened. The mill and camp, closed since November, will cut for export.

Alexander Sanger, who once homesteaded a quarter section of land, in what is now the heart of Winnipeg, is dead at New Westminster, B.C., aged 80.

W. A. Crawford-Ross of Nanton, Alberta, was re-elected president of the Alberta Hereford Breeders' Association at the annual meeting in association at the annual meeting at Calgary.

Major W. H. Gladstone Murray, M.C., prominent official of the British Broadcasting Company, has arrived in Ottawa to begin his temporary duties as advisor to the Canadian Radio Broadcasting Commission.

Construction of a \$75,000 oil refinery in Calgary is planned by Federal Oil Consumers, Ltd., Harold J. Maloney, chairman of the company's board of trustees states, the plant's capacity would be 250 barrels a day.

Alberta's legislature has adopted a motion presented by Premier J. E. Brownlee, urging the Dominion Government to call as soon as possible a conference to discuss changes in the British North America Act.

England will probably not be represented at the Canadian Bisley on Connaught ranges, Ottawa, this August. Lord Cattoe, president of the National Rifle Association, was "afraid financial conditions would prevent" the sending of an English team.

Statement Is Denied

Safest Says Eyes Do Not Change Color During Arctic Night

Brown eyes do not turn blue during the long nights of the polar region, according to Dr. Vilhjalmur Stefansson, noted Arctic explorer. Science Service quotes him as refuting, in a communication to the editor of Science, the statement made in another magazine that "after a prolonged absence of sunlight, men on polar expedition find that their eyes, irrespective of previous color, have turned blue."

Dr. Stefansson, in all his long experience in the lands of long nights could not recall having observed this phenomenon. The statement was alleged to have been inspired by an entry in the journal of Captain Scott, British explorer who perished after having reached the South Pole. Inquiries addressed to Captain Scott's companions and collaborators not only failed to bring confirmation of this report but brought forth statements to the opposite effect. Dark-eyed men see the sun return at the end of a polar night with eyes that are still dark.

Halifax Had Freak Winter

Lowest Temperature Recorded Was Seven Degrees Above Zero

Yachting on the harbor was not the only unusual incident of this freak winter in Halifax. For the first time since weather records were first begun in the city, about 60 years ago, the mercury failed to drop to zero during the months of December, January and February.

Mean temperature during February was 29.3 degrees, or nearly six degrees higher than the mean mark of 23.69 established during the last 22 years, according to figures compiled by Frederick R. Roman Dominick, meteorologist here.

The coldest day of the winter was Feb. 11, when the temperature was seven degrees above zero.

Absence of snow was another unusual feature of the winter. For instance, the total of snow and rain combined in February was 5.31 inches. During the same month last year the total was 17 inches.

U.S. Leads In Apple Production

Apple orchards of the world are estimated at 7,140,000 acres, with a yearly production of 550,000,000 bushels. Canada supplies only 2.4 per cent. of the total, the United States being in the lead with 35 per cent.

Sassafras trees have three distinct leaf forms and all three may often be found on the same twig.

W. N. U. 1932

Expensive Economy

Skimping On Advertising Has Always Always Been Poor Business

Henry C. Lytton, a veteran Chicago merchant, is quoted as observing that 1932 is of all years a year in which business men should make full use of advertising. And he speaks of what he knows.

Forty six years ago Mr. Lytton launched his business. He had, as he points out, just \$12,000 capital, but he did not hesitate to spend between \$3,000 and \$4,000 of it on newspaper advertising before he even opened his doors.

His business recently was valued at approximately \$7,000,000.

As a testimonial to the work that a wise advertising program can do for a business his experience speaks volumes. Skimping on the advertising appropriation can be false economy of the most expensive kind.

Japan Buys Canada Nickel

To Be Used In Minting New Small Coins

The finance ministry recently bought from the International Nickel Company of Canada several hundred tons of nickel for the purpose of minting new small coinage to replace the present five and ten-cent pieces of nickel and copper alloy. The set is 100 of the yen, which is equivalent to about 22 cents.

Officials of the finance and war ministries denied any knowledge of a plan to convert the present coins into bullets.

Winnipeg Newspaper Union

By Ruth Rogers

579

SMART! ISN'T IT? WITH MANY POINTS TO AID THE HEAVIER FIGURE

You won't go wrong to choose this jacket dress for your Spring wardrobe.

It is a Paris favourite.

The jacket has the most interesting sleeve treatment. It is the youthful "boxy" type. It is just adorable! The cross-over bodice is slenderizing. And it has a trim lace vest. The panelled cut skirt will make you appear tall and slender. The scalloped hemline has the effect of diminishing hip bulk.

The original model was the prettiest rosy-beige sheer rayon woolen, with beige and black checked wool. There was white pique.

It's an opportunity to have a stunning wearable suit at a minimum cost.

Style No. 579 is designed in sizes 16, 18, 20, 22, 24, 26, 28, 30, 40, 42 and 44 inches bust.

Size 36 requires 4 1/2 yards 36 inch, with 1 1/2 yards 36 inch for waistband.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

HEART OF THE NORTH

By

WILLIAM BYRON HOWERY

(WNU Service)
Copyright by William Byron Howery

CHAPTER VIII.—Continued.

The Inconnu patrol blew up. There was nothing Haskell could do about capturing those bandits. He knew that if Williamson asked why no move had been made, the short-handness at the post would be at least some excuse. Besides, one of the other detachments over on Hudson's Bay or southeast in the Reindeer Lake country, would probably nail those bandits and the affair would blow over.

Those rainy imprisoning days, as he sat in his cabin and looked out along the slope for a mere glimpse of Elizabeth Spaulding, he was tortured by the question of why she was still here, and what stood between her and Baker. Why had Baker bought out his hot haste and left this North country? But was his home? Was Elizabeth waiting for him, or had they split up?

Sometimes it seemed to Haskell that his appointment to this northern post had not been a mere vagary of luck but a secret act of destiny, that he might meet Elizabeth Spaulding. His triumph over Baker, his commission as a mounted officer, his career in the Mounted—what did the whole of it weigh against the prospect of losing Elizabeth after he had found her? With the sincerity of the only passionate love in his life, he felt that if Baker married her and took her away, his victory over the ex-sergeant would be a grinning mockery.

Late one quiet evening, when Bill Hardsock was gone on patrol, Haskell saw Elizabeth go up the slope to the cabin which had been Baker's, and light the candles there, and after a quarter-hour came away again. Tripping down the grassy terrace to Mrs. Drummond's flower garden, she sat down alone by the edge of it.

He went out of his loneliness cabin and out along the twilight slope toward her. . . .

Hat in hand, Haskell came up. With cold sardonic eyes she surveyed him, amused at his humility. Toward her the man had no pride left.

She reminded him sharply: "I believe I asked you not to talk with me again."

"Yes, you did," he said humbly. "I haven't forgotten. It's made these last couple weeks pretty miserable. But when I saw you over there to-night . . . Elizabeth, won't you let me—can't I stay just a little while? I got some news day before yesterday that cut me up pretty bad . . ."

He waited for her to comment, but

she said nothing. "You remember last winter I said my father was in poor health. I got a radiogram night before last about—about him."

Elizabeth understood that his father had died. She was quite well aware that Haskell was not exactly stricken by the news, though he was trying to play upon her sympathy.

She wondered why he was discussing the matter with her now.

As he went on talking of it, she began to see his reason. He mentioned the big country estate outside of Cobham, the town house in Ottawa, the extensive and valuable timber limits up the Kiamiki. When he hinted at himself being the only heir and the owner of all this, she saw his whole drift.

The news left her entirely cold. From his treatment of Alan she knew how tricky and dishonorable he could be. He was trying to bait her. She smiled sardonically at him for being so crude about it. Probably he thought to make her his Ottawa mistress.

The affections of such a man are evanescent at best, and certainly quicksand to build upon. Imagining her relatives with this man if she ever allowed himself to become dependent on him, she saw his staving off marriage by the old thredbare dodges, and at last turning coldly away, when passion went. Alan Baker in time would go farther than Haskell and his Cobham estate. Alan was honest, he could be depended upon.

Angry and contemptuous she arose. "I've got to go. But there's something I really must thank you for, Inspector."

"To thank me for?" He too had risen; he was leaning toward her eagerly. "I'm glad . . . I didn't know I'd done."

"You didn't intend it as a favor. But it was." With mocking irony in her tones she went on: "Last winter Alan was offered a very splendid position in Victoria. I wanted him to take it. You used to say he was a non-con with no prospects, and that was somewhat as I felt. He didn't want to leave. He wanted to stay in service and live here in the North. Just then he was wavering, you forced his hand. You made him buy out, and so you made our marriage possible. I'm awfully grateful to you, really. You didn't realize what a favor you were doing."

She left him standing there, staring after her, dazed and speechless.

That same evening, only an hour later, Haskell made a discovery so startling that in some measure it took his tortured thoughts away from Elizabeth.

A knock sounded on the door, and Whipple came in with a report.

"Sir, last week I missed fifty gallons of gas and five of oil from our stores. I thought it might be a paper mistake, but today I checked up again, and we're short still more."

"Well, what about it?" Haskell snapped.

"Nothing, sir; nothing at all," Whipple said hastily. He saw that his chief was in a vicious mood, and he backed away to the door. "I just thought that you would like to know . . . Most likely some half-breed with an outboard motor is stealing this, sir." And he closed the door quietly.

Again, again, unable to bear his stinging thoughts, Haskell turned in desperation to the service radio set in an effort to distract himself. As he had done on evenings past, he picked up an Edmonton station. Among the orders, news and personal messages, he heard that an aviator named Featheroff and another man, name unknown, had stolen a machine gun, a propeller, pack-plate, flying instruments and other things at Edmonton; and escaping in Featheroff's monoplane, had last been sighted following the Alberta and Great Western railway toward McMurray. The posts were warned to be on the lookout for the "pilot" and to arrest the criminal at sight.

The name and description of Featheroff meant nothing to Haskell, but the description of the other person made him thoughtful. Tall, sandy, scraggly-haired, gray-eyed, with a long prominent scar across his left temple—that description would fit Alan Baker to a dot. And Baker had gone south and might conceivably have reached Edmonton.

Haskell pondered this possibility a minute and then dismissed it. It was Bill Hardsock who innocently opened his eyes to the truth.

Knocking, entering, standing before the desk, Bill requested:

"Sir, if you don't mind, I've got three days' free time coming to me, and if you don't mind I'd like to take them now. I'd like to have them in a row, if you don't mind."

"I'm short of men as it is," Haskell cut him off. "You can't go. That's that!"

It wasn't "that" for Bill. Refusing

FAT GIRLS OUT OF FASHION

Women of All Nations Slimming

All over the world Kruschen Salts is appealing to girls and women who are striving for an attractive figure.

Here is the method they are following to banish fat and bring into bloom all the natural attractiveness that go with it: poverty; every meal they eat is a half-teaspoonful of Kruschen Salts in a glass of warm water before breakfast.

They do this every morning without missing a day for three days, then that takes off the fat."

When Kruschen is taken daily, every particle of poisonous waste matter and harmful acids and gases are excreted.

At the same time the stomach liver, kidneys, and bowels are toned up and the pure, fresh blood containing Nature's six life-giving salts is strengthened. The glands, heart, and fibre of the body, and this is followed by the "Kruschen feeling" of energetic health and activity that is reflected in bright eyes, clear skin, cheerful vivacity, and a charming figure.

It is driven out, he planted himself there wide-legged and pleaded for his three days—pleaded till Haskell saw that the corporal must have some special and urgent reason for wanting off duty.

"Are you getting married?" he demanded sarcastically.

"No, sir," Bill answered, with more outward respect than he had ever shown before. "I—I want to—go trout fishing."

Haskell angered. He started to order Bill out of the cabin on penalty of c. But then he suddenly checked himself, half-rose from his chair, gasping, with a revelation voltting through his brain.

Then it was—the whole crashing truth! Baker's strange haste to buy out, his strange journey out to civilization, the "plane coming north, the missing gasoline, Bill Hardsock's request for a leave of absence . . .

All these disjointed facts suddenly clicked together like the parts of a Chinese puzzle.

He was it—the whole crashing truth! Baker's strange haste to buy out, his strange journey out to civilization, the "plane coming north, the missing gasoline, Bill Hardsock's request for a leave of absence . . .

He was it—the whole crashing truth! Baker's strange haste to buy out, his strange journey out to civilization, the "plane coming north, the missing gasoline, Bill Hardsock's request for a leave of absence . . .

W. J. BARTLETT, PUBLISHER

Blairmore, Alta., Thur., April 6, 1933

A "true story" emanating from Grenada, along the Canadian National's West Indies steamer route, says that a solicitor there, feeling certain that the next six months would bring no business, laid in a stock of literature, some simple food and got his life into good condition." He then got into pyjamas and retired, getting up only to take exercise, feed himself and bathe.

Robert Strachan, senior government mine inspector of British Columbia and veteran from the early days of mining in the Crows' Nest Pass, was presented with a beautiful club bag of two dozen quarts capacity, by the Fernie and Coal Creek branch of the East Kootenay Mine Safety Association prior to his departure for his new quarters at Nelson. He was founder of the mine rescue association at Fernie.

Here is a good western yarn from the Lethbridge Herald: When the west tells a joke on itself, you may be sure it is worth the repetition. Here is one, flavored deeply with dryness of the prairie. A drought relief meeting is being held in southern Saskatchewan, although for the purpose of the story, any other semi-arid belt in the plains will do. "All we need to make this country a paradise is more moisture and better settlers," declares one optimistic farmer in his wisdom. "Yes," counters his neighbor, "but, come to think of it, I guess that is all they want in 'He'."

Fernie is supposed abroad to be one of the countries least affected by the depression. To some extent this is so, but every Frenchman earning of the interior of British Columbia, \$5,000 a year has to pay \$709 income tax. He is taxed for everything he eats and drinks, is taxed on his house, operates its own light system, but amusements and insurance, on everything he buys or sells, on his marriage and on his funeral. He pays \$64 a year for the right to drive a six-cylinder automobile, and 18 cents tax on every gallon of gasoline he buys. In addition to that, since the war he has lost 80 per cent of the value of every pre-war and war bond he owns.

Douglas Ross, son of Dr. T. E. Ross, who graduates from McGill University next month, has received an appointment as intern at the Montreal General Hospital. For thirty such vacancies announced by Montreal hospital authorities, there were 103 applications from the graduating class. Three out of six ex-Alberta university students of the class of 1927 received appointments, the two being Eddie Douglas, of Edmonton, and David Collison, son of the late Dr. Collison, of Red Deer. McGill professors at the Medical College speak highly of the standard of training given medical students at Alberta University.

Practically every other town in the Dominion of Canada are reducing taxes, while Blairmore's council are devising means of inflicting increased tax burdens on those who they figure are in best position to pay—and the joke of it is, there isn't a man connected with the schemes that knows what it's all for. Blairmore is the best fixed financially of any town in Canada of its size. The money is not needed, except to help feed a bunch of unemployed, most of whom refused work in relief camps, and who today are demanding twenty-five cents an hour more than they are worth. The advocates of increased taxes, light, water, etc., just require a little more rope and they'll surely hang themselves.

INTERESTING HISTORIES OF FERNIE

(By Alfred Cummings)

Fernie, B.C., April 1.—Coal is said to have been first found in the Crows' Nest Pass district at Coal Creek by Michel Phillips, an old timer of the Rockies valley, it is recalled through the decision to close the mines.

William Fernie, prospector and finally part owner of the Crows' Nest Pass Coal Co. This company was one of the large factors making possible the building of the Crows' Nest Pass branch of the Canadian Pacific Railway. The city was called after Mr. Fernie, who later retired to Victoria, some simple food and got his life into good condition." He then got into pyjamas and retired, getting up only to take exercise, feed himself and bathe.

Fernie city is situated at the junction of Coal Creek with the Elk River. It is one of the most beautiful townships in British Columbia. The Elk valley here is wide and the mountain scenery exceptional.

Five miles east up Coal Creek, where it cuts the eastern mountain range, is Coal Creek town, connected to Fernie by the M.F. and M. Railway, a subsidiary company of the coal company. The coal seems crop out in the valley of Coal Creek; and mining is done by tunneling into the seams and not by shaft sinking. Some of these tunnels are into the mountain now over two miles.

Most of the miners working in these mines live in Fernie and own their homes. On account of Fernie being five miles distant from the mines, it has escaped many of the disadvantages of towns in close proximity to coal mines.

Fernie city and suburbs have a population approaching five thousand. The assessed value of the school district which covers these combined areas is: Land \$82,054; improvements \$1,873,596, or a total of \$2,695,650.

The city is substantially built of brick and concrete in its business portion and has some of the finest stores in, but every Frenchman earning of the interior of British Columbia, \$5,000 a year has to pay \$709 income tax. He is taxed for everything he eats and drinks, is taxed on his house, operates its own light system, but amusements and insurance, on everything he buys or sells, on his marriage and on his funeral. He pays \$64 a year for the right to drive a six-cylinder automobile, and 18 cents tax on every gallon of gasoline he buys. In addition to that, since the war he has lost 80 per cent of the value of every pre-war and war bond he owns.

Douglas Ross, son of Dr. T. E. Ross, who graduates from McGill University next month, has received an appointment as intern at the Montreal General Hospital. For thirty such vacancies announced by Montreal hospital authorities, there were 103 applications from the graduating class. Three out of six ex-Alberta university students of the class of 1927 received appointments, the two being Eddie Douglas, of Edmonton, and David Collison, son of the late Dr. Collison, of Red Deer. McGill professors at the Medical College speak highly of the standard of training given medical students at Alberta University.

Practically every other town in the Dominion of Canada are reducing taxes, while Blairmore's council are devising means of inflicting increased tax burdens on those who they figure are in best position to pay—and the joke of it is, there isn't a man connected with the schemes that knows what it's all for. Blairmore is the best fixed financially of any town in Canada of its size. The money is not needed, except to help feed a bunch of unemployed, most of whom refused work in relief camps, and who today are demanding twenty-five cents an hour more than they are worth. The advocates of increased taxes, light, water, etc., just require a little more rope and they'll surely hang themselves.

The Michel mines of the company have acted as a competitor to the Coal Creek mines for the coal orders of the company, the coal being of a similar character. It is now claimed that it is cheaper to mine coal at Michel than at Coal Creek and as the company's business has shrunk in volume, so it cannot be carried on with a profit at both places, they are forced to concentrate at the mines giving them the cheaper output.

The city of Fernie has been very prosperous days. At the beginning it was the only coal camp in the

Rev. A. S. Partington, B.A., RectorServices for Sunday, April 9th:
Palm Sunday:
Sunday School at 10 a.m. in the hall.

Evensong at 7:30. Special music rendered by Mr. Sidney White.

BLAIRMORE PUBLIC LIBRARY

Books being placed on the shelves this week are:

"Reluctantly Held," Jane Hillyer;
"Hanshine Solidat," Peter Egge;
"Fortune's Fly," Rafael Sabatini;
"George Westover," Eden Phillips;
"Fortune Turns Her Wheel," Virna Sheard; "Mary Rose of Minn," Frances R. Sterrett.

The library hours are Tuesdays and Thursdays from 7 to 9 p.m., and Saturdays from 7 to 10 p.m. The fees are \$1.00 per year for residents an \$2.00 per year for non-residents.

The Corbin Motors' garage was destroyed by fire on Sunday evening.

Crows' Nest Pass and had no competition. The Great Northern Railway Company, who are said to hold a large block of stock in the coal company, bought the largest part of the mine's output at one time and the smelters of B.C. and adjacent U.S.A. territory took its excellent coke.

At its height the Coal Creek mines have turned out more than 4,000 tons a day and some 450 coke ovens at Fernie were kept busy, employing over 1,400 men in and outside the mines.

The payroll of the mines and the lumbering industry adjacent to Fernie ran well over \$200,000 a month in 1931 and 1932 it spent in bylaw cash: The lumber mills have now all

water works improvements \$40,000,

for roads \$7,500, and for aviation and park grounds \$12,500. The work was now using oil instead of coal carried on as an unemployment relief. Aggravating

measure and these amounts were also this as the duty of 70 cents on

largely augmented from money re-

ceived from the provincial and Dominion governments in aid of unemployment programmes.

The Crows' Nest Pass Coal Co.,

who own and operate mines at Coal

Creek, also own and operate the mines at Michel. This company at the time of the construction of the Crows' Nest

Pass branch of the C.P.R., the B.C. section of which is officially known as mine. Of late the world depression

the B.C. Southern Railway, received a large grant of land and coal rights.

This grant is bounded on the west by

the Elk river and stretching from

near Elk northernly 60 miles or more

and also follows the railway to Crows' Nest. The area covered is several

hundred thousand acres. The com-

pany's mine at Michel is in this area.

Michel is situated on the railway,

where Michel Creek cuts through the

coal bearing strata and exposes it to

easy mining.

The Michel mines of the company

have acted as a competitor to the

Coal Creek mines for the coal orders

of the company, the coal being of a

similar character. It is now claimed

that it is cheaper to mine coal at

Michel than at Coal Creek and as

the company's business has shrunk in

volume, so it cannot be carried on

with a profit at both places, they are

forced to concentrate at the mines

giving them the cheaper output.

The city of Fernie has been very

prosperous days. At the beginning

it was the only coal camp in the

area.

Now on April 1, its main support,

the Coal Creek mines, are to be

closed permanently.—Ex.

Local and General Items

Only five of the 77 members of the crew of the Akron have been accounted for.

Lawrence Bruce, young aviator, at Medine Hat as a result of injuries received when his home-made plane crashed to earth.

It took a whole week following the broadcast of a duet by Doc Blaney and Charles Clark at High River for a hurricane to develop.

On Wednesday, the last day of operation of the Coal Creek mine, Joseph Taback, a miner, was badly injured by a fall of coal.

A truck driver in the Wayne district was fined for having conveyed several persons to a funeral. Next, please?

The town council of Red Deer placed on file a letter received from Mayor Knight, of Blairmore, regarding the unemployed problem.

Two headings in a Nova Scotia paper were misplaced, and over a death account appeared the heading "Old landmark goes up in smoke."

The British Columbia liquor act changes propose to permit bottled beer being purchased in beer shops for consumption outside. Lower beer prices to consumers are also forecast.

The British Columbia Liquor Control Board has reduced the price of liquor permits from \$2.00 to twenty-five cents. What about Alberta following suit?

Mrs. J. A. Struthers, aunt of W. L. Shera, of Lethbridge, and sister of Mrs. W. G. Shera, of Fort Saskatchewan, died at Macleod last week. She came to Macleod in 1894.

An Alberta University student, Donald Cameron, B.Sc., is among the six Canadians to win the Carnegie scholarship for study of Scandinavian folk schools. Mr. Cameron will spend this summer in Europe as a result.

George and Jessie Lovatt were sentenced at Victoria to fifteen and ten years respectively for the slaying of Charles A. Coulson, tugboat captain. The killing was the result of a love triangle.

In Manchester, England, a new kind of rubber road, which may revolutionize the whole road-making industry, has been tried. Instead of using rubber blocks, as in previous rubber-type roads, the rubber has been melted and mixed with macadam, and then spread over the road like jam.

The fall in coal business has resulted in a loss of \$7,500, and for aviation and park grounds \$12,500. The work was now using oil instead of coal carried on as an unemployment relief. Aggravating measure and these amounts were also this as the duty of 70 cents on

largely augmented from money re-

ceived from the provincial and Dominion governments in aid of unemployment programmes.

The Crows' Nest Pass Coal Co.,

who own and operate mines at Coal

Creek, also own and operate the mines at Michel. This company at the time of the construction of the Crows' Nest

Pass branch of the C.P.R., the B.C. section of which is officially known as mine. Of late the world depression

the B.C. Southern Railway, received a large grant of land and coal rights.

This grant is bounded on the west by

the Elk river and stretching from

near Elk northernly 60 miles or more

and also follows the railway to Crows' Nest. The area covered is several

hundred thousand acres. The com-

pany's mine at Michel is in this area.

Michel is situated on the railway,

where Michel Creek cuts through the

coal bearing strata and exposes it to

easy mining.

The Michel mines of the company

have acted as a competitor to the

Coal Creek mines for the coal orders

of the company, the coal being of a

similar character. It is now claimed

that it is cheaper to mine coal at

Michel than at Coal Creek and as

the company's business has shrunk in

volume, so it cannot be carried on

with a profit at both places, they are

forced to concentrate at the mines

giving them the cheaper output.

The city of Fernie has been very

prosperous days. At the beginning

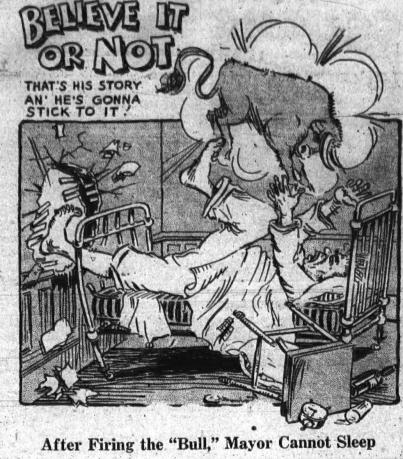

it was the only coal camp in the

area.

Now on April 1, its main support,

the Coal Creek mines, are to be

closed permanently.—Ex.

BELLEVUE

SILVER WEDDING IS MARKED IN BLAIRMORE

Members of the Ladies' Aid of the Blairmore United church entertained Mr. and Mrs. D. B. McKay, of Blairmore, last Friday evening, on the occasion of their silver wedding anniversary. The entertainment, which was held in the auditorium of the United church, was in the nature of a surprise to the honored guests, Mr. and Mrs. D. B. McKay.

About sixty guests sat down to a sumptuous supper provided by the Ladies' Aid. A feature of the entertainment was the presentation of a mock wedding. The principals of this wedding were Mrs. W. Howe (groom), Mrs. E. M. Neville (bride), Mrs. J. Patterson (best man), Mrs. F. M. Pinkney (flower girl), Mrs. E. Archer (bride's father), Mrs. Pilkington (bride's mother), Mrs. D. A. Howes, Mrs. E. Harper and Mrs. White (ribbon bearers), Mrs. S. McKay (solist), Mrs. Vaughn (pianist), and Mrs. S. G. Bannan (minister). The presentation of this mock ceremony caused considerable merriment and was greatly enjoyed by the bride and groom of 25 years' married bliss.

The president of the Ladies' Aid, Mrs. S. G. Bannan, presented Mr. and Mrs. McKay with a silver cake plate, on behalf of all those present, and Mr. McKay responded, thanking those present for their kindness and for remembering Mrs. McKay and himself on the attainment of their silver wedding. Rev. A. E. Larke, minister of the church, congratulated the happy couple on reaching their 25th milestone of married life. The enjoyable party came to an end by all singing "For They Are Jolly Good Fellows."

Mr. and Mrs. McKay have resided here for quite a number of years and have made a host of friends. The Enterprise joins their many friends in wishing them many more years of married happiness.

The regular meeting of the Blairmore Board of School Trustees, on Thursday night last, the estimates for the ensuing year were given consideration, and a motion was passed to requisition the sum of \$24,000, which, with grants expected from the department, it was felt the school could manage to pull through. This sum provides for free supplies, less texts, books.

The minutes of meetings held on February 2 and 22, and March the 3rd, were read and adopted; also minutes of a special meeting held on March the 21st.

Accounts passed for payment, including salaries, totalled \$2,119.00.

Two applications for positions on the teaching staff were filed for future reference.

For the Easter holidays, it was decided to close the school on Thursday afternoon, April the 13th, to re-open Monday, the 24th.

Present were chairman Pinkney, members Bannan, Oakes, Horne and Bosetti. Mr. Pinkney was re-elected chairman at the special meeting held on February the 22nd.

EDWARD G. ROBINSON HAS NEW CHARACTERIZATION

When next the fans meet Edward G. Robinson on the screen, they will encounter a new phase of his ever-active versatility. In "Tiger Shark," the first National sea thriller, at the Orpheum for the balance of the week, he will be seen as a Portuguese fisherman, adding another to his growing list of racial characterizations. Beginning with his success in "Little Caesar," Robinson has been an Italian, a Frenchman, American, Chinese and now, Portuguese.

"Fresh from the Gardens"

Fear Controls The World.

Conditions throughout the world today demand and should command the serious attention and earnest thought of all people. In this particular article we are not referring to the general economic troubles of the world. They are in large part the result of other conditions to which specific attention is now directed, namely, "Fear" which possesses so many nations and peoples and which is finding expression in various countries in what may best be described as "reign of terror."

Our daily newspapers are filled with reports of the persecution of this or that race of people, or of groups adhering to this or that religious sect, with resulting outrages, boycotts and killings. Some of these reports are no doubt exaggerated; some possibly entirely false, with propaganda for this or against that the underlying motive. But making due allowance for all this, the fact remains that persecutions and outrages are being perpetrated in many lands. This is inevitable when democratic forms of government are overthrown and autocrats and dictators take control of government and the affairs of nations, directing not only their national and international affairs, but the very lives of the people.

To all practical intents and purposes the German republic established after the Great War has disappeared, democratic forms of government suspended, and a class dictatorship set up. This has resulted immediately in a nation-wide persecution of the Jews, which has aroused people in all nations. It is a religious persecution reminiscent of the dark ages.

In India every effort of the British Government to grant more responsible government to that great country with its teeming millions of people is frustrated by reason of the bitter racial and religious antagonisms existing between Moslems and Hindus and the impossible caste system prevailing which shows no signs of breaking down.

In Russia every conceivable effort is made to destroy all religion, and to set up in its place a sort of State religion of communistic socialism with Lenin as its god. Justice as we know it in this country does not exist; rather a reign of terrorism prevails with no person being able to call his soul his own—the whole upheld by a huge standing army, and with the arts of war being taught in every factory and on every collectivist State farm.

Europe is armed to the teeth, each nation obsessed with a narrow nationalism, alive with deadly racial and religious suspicions and hatreds. Every effort to achieve any substantial disarmament has failed because of the all-pervading "Fear," and we find the British Prime Minister and his Foreign Secretary touring the leading capitals of Europe in a desperate effort to prevent a complete breakdown of the Disarmament Conference and another great war.

Japan wages undeclared war on China, and meets the condemnation of its conduct by the League of Nations with defiance to that world body, repudiation of it, and withdrawal from it.

Even in our own country we have witnessed whole communities, sometimes Provinces, even the Dominion, thrown into turmoil based on objections of one portion of the population to the religious views, or because of the racial origin, of another portion.

All down through the ages of the past the longest and bitterest wars have been fought in the name of religion. The blackest pages of human history record deeds proudly done in the name of and sanctified by religion. And the world seems to be headed for another holocaust of war, the first seethings in the gathering cloud manifested by such events as are now reported from Russia and Germany.

It is "Fear" which stalks in the nations today, that is primarily and chiefly responsible for the financial and economic troubles in Canada, the United States, Great Britain, the whole world. Remove that "Fear" and all peoples would settle down to their usual avocations in life, and living would become sweet and the world happy and prosperous.

Canada suffers because the whole world suffers, and the world suffers because of the present state of men's minds. It is not the political or economic systems under which the world has been progressing that have broken down so much as it is the morale of men which has been weakened by reason of a resurrection of the perverted views of the dark ages.

Canada wants concord and peace. It is the only foundation upon which it can develop and prosper. Therefore, it behoves all Canadians, irrespective of their racial origin, their religious beliefs, their political and economic opinions, to throw their whole weight into the balance in favor of world disarmament. And the most effective way in which that can be done is to now and forever repudiate all the old racial and religious enmities which have spoilt our national life on many occasions in the past. The force of such an example from Canada would not be lost upon other nations.

Game Birds For Saskatchewan

Five Hundred Pheasants Are Sent
To North Dakota Government

Saskatchewan's wild bird life population was increased by 1,500 pheasants when several caravans of beautiful game birds arrived from North Dakota.

The pheasants were sent to the game branch of the Saskatchewan government in exchange for pickered eggs shipped from Jack Fish Lake to the North Dakota government.

These birds will be distributed widely throughout the province, stated Major John Barnet, deputy minister of natural resources, while 400 or 500 will be retained at the wild animal park at Moose Jaw. The birds at Moose Jaw will form the nucleus of a hatchery from which eggs will be distributed to all parts of the province.

Race Hard On Horses

Course At Aintree Where Grand National Is Run Is Most Difficult

The most difficult race for horses is the Grand National, over the famous steeples course at Aintree, England, near Liverpool. From 40 to 60 horses start in the event, which calls for five and one-half miles of running and jumping over the 30 barriers. Crowds ranging from 200,000 to 300,000 sit in the stands or walk along the racing strip. Few horses finish. In the decade from 1920 to 1930 only 73 of the 398 horses that faced the barriers reached the judges stand.

A year's refuse from London's houses would cover an area of 33 acres to a depth of nine feet.

Tokyo, Japan, has a building boom.

Pains Around Her Heart Tired Out After Doing Housework

—Helen Barnes, Milburn's Lake, Alta., writes:—Last week I had bad pains in my heart, and each morning, after doing a little housework, I seemed to get dizzy and feel all tired out.

Seeing that Milburn's Heart and Nerve Pills worked well when I sent for a box, and after taking the Pills for a few days, I felt a whole lot better. Since then I have had no return of the dizzy spells and pains around the heart."

Claims Champion Aged Skater

Prince Edward Island Man At 83
Takes Daily Spin

In Joseph E. Arsenault, the town of Wellington, Prince Edward Island, believes it has the champion aged skater of the world. With 83 years to his credit, Mr. Arsenault has been daily astonishing spectators with skating exhibitions at the rink this winter.

With energy and vigor extremely rare in a man of his advanced years, he has "worked out" almost every day that ice has been available for the last three years and hopes to continue, at least, until he has spanned the remaining seven years which separate him from the century mark.

The powerfully-muscled limbs which still drive him over the ice at a good clip were developed, the aged skater says, in the days when as a youth he taught school at Cascumpe. He lived about seven miles from the school and it was his habit to do the blades and skate the full distance to the school house each morning that ice conditions permitted.

This practice, coupled with "right living and moderation in all things," built for him a sturdy physique which later stood him in good stead during his 38 years of railroading and the subsequent years of retirement. Today, he is still able to step off a lively jig with all the vim of a man 40 years younger.

NEIGHBORS TALK

"I am employed in a theatre and it is a problem to make ends meet, as there is a great deal of competition. I like to dress well but haven't very much to spend on clothes. To give the appearance of variety to my style, I wear many changes of color and a dress or stocking soon as those things become faded. I always use Diamond Dyes for the work—using them as dyes for dresses and as tints for stockings. I have always gotten good service from Diamond Dyes and neighbors talk about the great number of "new" things I have.

"I learned about Diamond Dyes from our war-time neighbor. She says she tried all the dyes on the market but none do such splendid work and are so easy to use as Diamond Dyes. I understand they are the world's most popular dyes—and they deserve to be."

L.P., Montreal.

Christie Brown, Winnipeg

Bakery, Reports Progress

Firm Has Faith In The Courage and Enterprise Of The West

When Christie, Brown & Company, Limited, erected their Winnipeg Bakery, the most modern of its kind, at a cost of over one million dollars, just eighteen months ago, it was proof that they had faith in the courage and enterprise of the West, notwithstanding the unsettled conditions prevailing at that time. And although economic conditions show little improvement, figures to hand show that February, 1933, was the biggest moment in the history of the Bakery, a marked increase in production being shown in every department.

These substantial sales increase is due, largely, to the introduction, during the last year, of several popularly priced fancy lines. Grocers and thrifty housewives alike were quick to recognize these real biscuits.

The fact, too, that the Company is now able to guarantee fresh delivery every day from Winnipeg to Vancouver Island is stimulating sales to the point that new high records are expected.

Not Recognizing Defeat

"The British railways have been hard hit but they have the John Bull habit of not recognizing defeat. On the part of the Southern Railway spending 13,000,000 pounds on docks at Southampton, the Great Western now announces an order of 4,000 freight cars at a cost of \$5,000,000."

Forgot New Method

A pilot's forgetfulness after 35 years of the old methods to give orders under the new form of steering by which "port" and "starboard" have become "left" and "right," was disclosed at an inquest at Deptford, England, to have been partly responsible for a Thames collision.

Over Two Million Profit

Twenty-six firms were engaged in manufacture of hardwood flooring in Canada in 1931. Raw materials (rough lumber and logs) cost \$2,497,323, and the value of the finished product was \$4,589,716.

Fifty bodies the size of the moon would be required to form one mass as large as the earth.

Applications for patents in South Africa last year numbered 1,185.

Reduced Wheat Acreage

U.S. President Has Set Curtailment Of Wheat Acreage As One Objective Of Administration

President Roosevelt has set curtailment of wheat production by agreement of the major producing countries as one objective of his administration. This subject may come up at the world economic conference this summer and is certain to stir future diplomatic activity.

Mr. Roosevelt's proposal comes at a time when the world is increasing steadily its rate of wheat consumption but at a pace far behind the rise in production.

Many factors have complicated the world wheat situation. In countries best suited to production—such as Canada, Argentina, the United States and Australia—under the stimulation of high wartime prices, vast areas previously uncultivated were put into wheat.

Production increased least rapidly in the United States, where a definite curtailment movement set in after 1920. In 1921-22, this country had 64,600,000 acres planted in wheat. For the current year, abandonment of winter wheat areas and a fall in intentions to plant indicates an aggregate acreage of only 55,200,000 acres.

In contrast, Russian plantings mounted from 36,400,000 acres in 1921-22, to 92,100,000 acres last year. Its estimated wheat area for this crop year is 88,700,000 acres. Canada's acreage increased from 23,500,000 in 1921-22, to 27,500,000 estimated for this year; Argentina boosted its wheat area from 14,200,000 acres in 1921-22, to a prospective 19,500,000 this year.

Australia had 9,700,000 acres in wheat in 1921-22, and this year will grow 15,600,000; and Europe outside of Russia, had 64,200,000 acres in wheat in 1921-22, and expects to have 75,000,000 acres this year.

All other wheat growing nations, including China, have increased their acreage, from 48,600,000 acres to a planned 61,900,000 this season.

More and more wheat has been withdrawn from international commerce as many of the smaller nations have found varieties which they could produce. Many countries, notably France, have developed an eagerness for self-sufficiency, especially in bread supply.

The empire preferences have changed greatly the position of the United Kingdom. Since they went into effect from Nov. 1, to Jan. 30, the United Kingdom obtained only 1.6 per cent of its supply from the United States compared with 8.1 per cent in the same period the year before. From Canada she obtained more than 57 per cent of her supply in the latter period compared with about 27 per cent during the same time in 1931-32. Australia supplied 16 per cent from November to January, inclusive, against 6.8 per cent during the period of the previous year.

Great Lakes' Fish Yield

Report Shows Lake Erie Leads In Annual Catch

The fish yield of the Great Lakes for the ten years between 1921 and 1931 has totalled in the neighborhood of half a million tons, the United States Bureau of Fisheries reports. The figures issued by the bureau for that period, covering the five Great Lakes and including Lake of the Woods, Rainy Lake and Nipigon Lake, show a yield of 98,473,000 pounds of commercial fish or 494,736 pounds exclusive of a considerable catch from the Detroit River, St. Clair River and Lake St. Clair.

The catch of commercial fish in 1931, the last year for which a report has been made, covering all the Great Lakes, was \$1,270,000 pounds; in 1930, \$4,948,000 pounds, and in the previous year \$5,389,000 pounds. Between 1918 and 1928 it ran from \$69,000,000 to \$92,000,000 pounds.

The annual catch from Lake Erie runs almost twice as high from an average of the five Great Lakes; Lake Michigan holds second place in this respect and the others, in order of their importance, are Lake Huron, Lake Superior, and Lake Ontario. The yield from Lake Erie for the last ten years has run from 18,000,000 to 59,000,000 pounds a year, while from 15,000,000 to 35,000,000 pounds of fish have been reported taken annually from Lake Michigan over the same period.

Lithium, potassium and sodium, the three lightest metals, will float on water.

Syria may ban the circulation of Turkish silver coins.

Historic Church In Danger

Men who were boys when Charles Dickens used to go to Cobham are rallying young villagers and Dickens' fans to save the old church which Dickens knew so well and money is being raised for re-roofing.

It is the only evaporated milk that can possibly a great variety of new and tasty dishes that you and your family will delight in.

Old London Newspaper

Copy Of The St. James Chronicle Of The Year 1797 Found In Saskatchewan

On a recent round of inspection in southwestern Saskatchewan, Inspector George Binning, R.C.M.P., Swift Current, picked up a very interesting copy of an old London newspaper, the St. James Chronicle. The paper, a semi-weekly, is dated June 24, 1797, and is in good state of preservation.

The front page is headed with the crest of King George IV, and there are personal items regarding the royal family, note being made that his majesty was then riding until 2 o'clock, when he returned for dinner, and that "the queen and princess were out airing in post coach and four and returned to the lodge soon after two."

On the front page appears an announcement of the Irish state lottery, shares in which were on sale at licensed state lottery offices, half shares costing three pounds, 13 half shares and six pence.

The issue also contained a speech by President Adams to the United States Congress, delivered more than a month previously, May 16, 1797.

Getting Used To Failure

Hard Times Tend To Destroy Moral Fibre Of Man

There is none as much shame in a prison as there once was. The frequent pressure of handcuffs squeezes the shame glands dry. There is not as much shame in financial failure as there was before the depression. Constant bearing of financial pressure makes the conscience harder. It will take a long time after the depression leaves us to make the timid shrink and shudder at the thought of prison, or rob the debtor of his restful slumber. Perhaps this will be built up new again before the moral fibre of man is restored.

SOURING ON THE WORLD?—THAT'S LIVER

Wake up your Liver Bile

—No Calmed necessary

Many people who feel sour, sluggish and easily tired make the mistake of taking salts, or gau, or roughage which only more stimulates the liver.

What you need is to wake up your liver bile. Take a few drops of liquid bile into your bowels. Get your stomach and intestines working as they should.

Carter's Little Liver Pills will soon fix you up again. Get them by name. Refuse substitutes. See us at the drugstore.

Farm Help Wages

Wages of male farm labour in Canada for the last summer season were reported as \$19 per month in 1932 as against \$25 in 1931 and \$34 in 1930, says the "Economic Annalist." For women, the amount was \$11 as against \$15 in 1931. The value of board for men is placed at \$15 per month as against \$18 in 1931, and \$22 in 1930; for women \$12 as compared with \$16 in the preceding year.

Four Niger Stamps having a face value of 25 cents each brought a fraction over \$100 in London, England.

A nerve specialist is a man who charges \$75 to tell you not to fret about things you can't help.

MINARD'S
"KING OF PAIN"
LINIMENT

"N. N. U. 1938"

WORLD ECONOMIC CONFERENCE MAY SOON BE HELD

London, Eng.—Aspects of a "new deal" for the world became evident here in conferences between Prime Minister Ramsay MacDonald and Norman H. Davis, United States ambassador-at-large.

They have as their objective convening a world economic conference as soon as possible and breaking the stranglehold which is suffocating world trade.

Both agree the sooner the conference is held, the better. They proceeded with a preliminary exchange of views, the first of which was a decision that only six weeks' notice need be given the participating nations, instead of three months, marking the beginning of the conference possible for late in May.

Their talks were confined to the economic conference. Disarmament and debts were not discussed.

Mr. Davis said the conference does not depend on settlement of either debts or disarmament, and he would not discuss the British debt payment due the United States on June 15. He intimated, however, that the new congress was largely elected on the understanding that there would be no cancellation, reduction or postponement of the war debts.

He is proceeding on the assumption the economic conference will be held in London, and does not know whether a preliminary British mission, possibly headed by Mr. MacDonald, will go Washington.

Study Authority Given Parliament At Ottawa

Law Officers Looking Into New Rights Under Statute Of Westminster

Ottawa, Ont.—Law officers of the crown are studying the new authority given to the Canadian parliament as a consequence of the statute of Westminster. Hon. Hugh Guthrie, Minister of Justice, told the House of Commons. It was expected a bill with a number of clauses embodying the territorial and other rights given to parliament would be brought down this session. In the measure would probably be included a provision abolishing appeals to the judicial committee of the privy council in England in criminal cases.

Quits Germany

Prof. Einstein Takes Step To Re-nounce Prussian Citizenship

Berlin, Germany.—As direct-action repressive measures by Chancellor Adolf Hitler's Nazis got under way against Jews in many parts of Germany as a prelude to the nation-wide anti-Jewish boycott, it was learned Prof. Albert Einstein has taken steps to renounce his Prussian citizenship.

Prof. Einstein, a Jew, became a citizen in 1914 when he accepted a position with the Prussian Academy of Sciences. Upon landing at Brussels after his recent trip to the United States, he wrote to the German consulate there for information about the steps necessary to end his citizenship. He pointed out he formerly was Swiss.

Anti-German Boycott

Reaction In France Regarding Anti-Semitic Demonstrations

Paris, France.—The start of a French anti-German boycott appeared with some merchants displaying signs saying "German salesmen will not be received." French Jews were organizing mass meetings in protest against alleged anti-Semitic atrocities in Germany.

The feeling in France was indicated when an audience in Marseilles ceased a mass meeting of the meeting. Emile Ludwig, the noted biographer, after the chairman of the meeting declared Ludwig was an exile from Germany. The audience burst into violent protest because of the author's criticism of military features of the Versailles peace treaty.

Left \$50,000 Estate

Ottawa, Ont.—An estate valued at \$50,000 was disposed of under the will of Rt. Hon. F. A. Anglin, former chief justice of Canada, entered for probate here. Consisting of \$20,000 insurance and the balance chiefly in real estate, it is left to the widow. The residue remaining at her death is to be divided among three children.

Resentment In Russia

Soviets Object To Attitude Of Britain In Sabotage Charges

Moscow, Russia.—Foreign Commissioner Litvinoff has inferentially accused the United Kingdom of attempting "harsh diplomatic pressure" in connection with British subjects arrested in sabotage charges involving the operations of the British-Metropolitan Vickers Electrical Company, an official communiqué revealed.

The communiqué told of a call made by Sir Edmund Ovey, the British ambassador, at the foreign office yesterday "to acquaint the foreign minister with steps the British Government intends to take if the Soviet Government places on trial several British subjects charged with sabotage."

Mr. Litvinoff did not wait for the ambassador to explain the measures contemplated, the communiqué said. Instead he told the ambassador that the government's decision to try the case "cannot be changed, and if the British Government intends to influence this decision by informing us of its intended measures, then the ambassador may rest assured that nothing will come of it."

The foreign minister remarked that "natives such as attempted harsh diplomatic pressure from the outside might be successful in Mexico, but in the Union of the Socialist Soviet Republics they are doomed to failure before starting."

Sir Edmund formerly served as Britain's diplomatic representative at Mexico City.

After the foreign minister had made his remarks, the communiqué said, "the ambassador did not insist on explaining the British measures."

It is understood the action contemplated by the British Government consisted of an embargo against Soviet goods.

Guarding Airplane Wreck

Armed Police Protect Remains Of Imperial Airways' Plane

London, Eng.—Britain has been shocked by the air disaster which snuffed out the lives of 15 persons who were aboard the British Imperial Airways tri-motorized "plane, "City of Liverpool," when it crashed near Essen, Belgium.

A twisted mass of wreckage was still the custodian of 13 of the passengers who had met instant death as the great "plane caught fire and fell to the earth like a spent rocket. Two more bodies were found in the vicinity but were mutilated beyond recognition. Two victims had evidently attempted to jump free of the plane.

Belgian air industry officials are expected to conduct investigations into the catastrophe. Meanwhile a cordon of armed police are on guard around the remains of the once proud "City of Liverpool" that was enroute from Cologne, Germany, to Croydon, England, via Brussels, Belgium.

London, Eng.—Officials of the Imperial Airways confessed themselves at a loss to explain the catastrophe involving the crash of their air liner, "City of Liverpool," in Belgium with the loss of 15 lives.

Assist Horse Breeders

Policy Of Government In This Connection To Be Continued

Ottawa, Ont.—The policy of providing assistance to horse breeders clubs in the prairie provinces is to be continued this year with adjustments to the advantage of the breeders, it was announced by Hon. Robert Weir, Minister of Agriculture.

The date of application is brought forward to June 1, and a promotion to whom the clubs and breeders should apply for information has been appointed in each of the prairie provinces.

The promoters appointed are: Carl Roberts, Osborne, Man.; J. W. Burns, Calgary, Alberta; Lt.-Col. H. W. Arnold, Saskatoon, for North Saskatchewan; and Dr. Charles Head, Regina, for South Saskatchewan.

France Lost Business

Paris, France.—France lost 4,000,000 francs in trade with the United States as a result of defaulting on the \$19,000,000 debt installment due last December, former Senator Gabriel Taublieb told a meeting of business men and others called on behalf of the campaign to pay United States.

Bill Passes Senate

Ottawa, Ont.—The bill authorizing the holding of hospital sweepstakes in Canada has been passed by the senate committee on private bills. The measure was sponsored by Senator A. D. McRae (Cons., Vancouver).

SUGGEST SOME CHANGES IN OUR VOTING SYSTEM

Ottawa, Ont.—Radical suggestions for changes in Canada's electoral system were advanced in the senate today coupled with a few caustic remarks on the workings of democracy as at present organized.

As a cure for the present high cost of elections, Senator C. W. Robinson of Moncton, himself a veteran of many electoral battles, suggested total abolition of election booths, elimination of registration and the taking of votes by a house-to-house canvass. In his opinion it would save millions of dollars.

"The opinion of half the electors is not any good anyway," said Senator George Lynch-Staunton of Hamilton, as he agreed with the proposed abolition of registration which cost more than \$1,000,000 at each election.

"Take 100,000 young girls voting," said Senator Lynch-Staunton, "their collective opinion would be of great value to any government, wouldn't it?"

The House of Commons might as well be abolished and the entire cost of elections eliminated, remarked Senator C. E. Tanner of Pictou, N.S. The country would not be in its present financial difficulty if there had been no commons and the senate alone had dealt with legislation in the last 10 years.

The discussion took place on Senator W. E. Foster's resolution favoring an inquiry into methods of improving the electoral system. Senator Tanner adjourned the debate and the discussion will continue later in the week.

Senator Lynch-Staunton thought the machinery of government in Canada was far too cumbersome. There were Dominion, provincial and municipal elections. There was no reason, once every five years, why aldermen should not also be elected for five years instead of a single year. Canada had more governments than any other country and more elections.

Mines May Shut Down

Victoria, B.C.—Advices were received here that the Crow's Nest Pass Coal Company, would cease operation of the coal mines of Fernie, in southern British Columbia, main support of a population of 5,000 people. Thomas Uphill, Labor member from Fernie, has given notice that he will ask the legislature that the mine be turned over to interests which will operate them.

Counterfeiting has been flooding Scotland with bogus bank notes.

THE NATIONAL ENTRY WHICH SCORED

ENVOY TO MEXICO

Josephus Daniels, war-time Secretary of the Navy under President Wilson, who has been nominated by President Roosevelt as U.S. Ambassador to Mexico. Nomination by the President is tantamount to appointment.

British Officers Kidnapped

Chinese Pirates Seize Four Officers From British Ship

Newchang, Manchuria.—A group of armed Chinese buccaneers kidnapped four British officers from the British merchantman, "Newchang," which was anchored at the Newchang bar.

The captain of the steamer pursued the pirates, frantically wirelessing an alarm, but the abductors escaped in their junks in the shallow water.

They had swarmed aboard the steamer from three junks, which opened up heavy fire as they drew alongside. British gunboats began an immediate search for the pirates and their victims. The men abducted are W. E. Hargrave, A. D. Elue, F. L. Pears and Charles Johnson.

To Investigate Finances

Federal Government Has Sent Official To Western Provinces

Ottawa, Ont.—Before acceding to the requests of the western provinces for financial assistance the Bennett Government has decided to carry out an investigation into their affairs.

For this purpose, Watson Seller, federal comptroller of the treasury and assistant deputy minister of finance, left Ottawa, March 28.

Secrets is being observed with respect to his mission and it is somewhat uncertain if Mr. Seller will go direct to Victoria and work east, or begin at Winnipeg and work west.

Fire In Dublin

Blaze Believed By Authorities To Be Of Incendiary Origin

Dublin, Irish Free State.—Fire, believed by authorities to be of incendiary origin, swept Connolly House, headquarters of the Communist Irish revolutionary workers group, and a block of buildings nearby in Bachelors' Walk.

First estimate said the damage might be enormous. Several stores and other adjoining properties were badly burned.

The blaze in Bachelors' Walk, which runs of O'Connell street by the bridge, was under control at midnight.

Many persons were injured in fighting at Connolly House, which is about 100 yards from Bachelors' Walk. Several hundred men stormed the Communist headquarters. They threw stones and broke windows, forced their way through the entrance and seized a red flag, pamphlets and firearms which they threw into the street.

The flag and the pamphlets were burned in a demonstration outside the building.

Police repeatedly charged into the crowd, but the disturbance lasted long past midnight.

Connolly House was attacked by hundreds of young men Sunday and Monday nights in the course of Communist meetings.

Thousands of people watched firemen fighting tonight's blaze which was said to be one of the biggest and most dangerous Dublin ever experienced.

Appointment Confirmed

Colonel Taylor, Manitoba Leader Of Conservatives, Receives Judgeship

Ottawa, Ont.—Appointment of Col. F. G. Taylor, for many years Conservative leader in Manitoba, as a judge in the court of king's bench that province, was officially confirmed with the signing of the order-in-council by the prime minister.

The appointment is to the vacancy created by the resignation of Mr. Justice A. C. Galt, which was recently received. Mr. Justice Galt, who just celebrated his 60th birthday resigned because of ill-health.

A MEASURE TO CURB ACTIVITIES OF ARMED THUGS

Ottawa, Ont.—The House of Commons moved to clamp down on gun-toting when it considered a bill to impose a five-year maximum penalty for carrying a revolver or sawed-off shotgun without a permit. In addition, the bill would add two years to the sentence of any man convicted of holding up or bank robbery.

Hon. James Malcolm, former Minister of Trade and Commerce, advanced stringent regulations against gun-toting by policemen. "Of late years the Ontario provincial police have gone to an absurd length in this regard," he said. "In small towns and country districts all through Ontario, for the first time in history we have seen these provincial police going around with a holster and two exposed guns. There are no criminals in the rural parts of Ontario and the duties of our police do not demand the carrying of concealed or exposed weapons."

Although James S. Woodsworth, leader of the Co-Operative Commonwealth Federation, expressed similar thoughts, the House generally did not agree with the former trade minister. It was reported from all over Canada, said the justice minister, that gun-toting was on the increase. Thomas Reid, Lib., New Westminster, said Vancouver had 411 armed hold-ups in the first 11 months of 1932, "and life and limb are not safe. It would be a dastardly crew to leave our police without amendment."

The eminent though had no friends in the House. Wilfrid Harbord, Lib., Vancouver-Burrard, said any man who carried a concealed gun was a potential murderer, "and if I had any thing to say about it, I would put him in jail for the rest of his life."

Dr. J. P. Howden, Lib., St. Boniface, asked for separate treatment for carrying a sawed-off shotgun. "That's the bird who means business, and we should have a special clause in the bill for him."

The bill would impose a one to five-year sentence for carrying concealed weapons without a permit. In addition, it would revise former sections of the criminal code dealing with permits, for the sale, ownership or carrying of weapons and would increase penalties.

BRITISH ENVOY IS RECALLED FROM RUSSIA

London, Eng.—Sir Edmund Ovey, ambassador to Moscow, has been called home to report in person on the arrest of six British subjects employed by the Metropolitan-Vickers Electrical Company, charged with sabotage by the Russian Government.

Newspapers which regard the incident as of considerable importance to relations between the two governments asked of the possibility of a ban on Russian imports, cancellation of negotiations for a new trade-treaty with Russia, and perhaps a severance of diplomatic relations.

Sir John Simon, foreign secretary, was questioned in the House of Commons but declined to comment on the government's intentions.

The six men accused are: Alan Monkhouse, director in Moscow for Metropolitan-Vickers; Charles Nordwell, W. H. Thornton, W. H. McDonald, John Cushing, and another technician named Gregory.

Monkhouse and Nordwell are at liberty.

Moscow, Russia.—British embassy announced Ambassador Sir Edmund Ovey had been called to London to report on the arrest of several British subjects employed by the Metropolitan-Vickers Electrical Company.

It was said on excellent authority he is not likely to come back, and that probably will add to the complications which began with raids on the company's offices and the filing of sabotage charges against several technicians.

Virtually the entire diplomatic corps was present to see off Sir Edmund and his family when they took a train for Berlin, but the foreign office was not represented.

Old Age Pensions

Alberta Will Not Believe Municipalities From Paying Share Of Cost

Calgary, Alberta.—There will be no relief to municipalities regarding old age pension payments, Premier J. E. Brownlie, of Alberta, has informed Mayor A. G. Davidson, of Calgary, who asked the government to relieve the city of the 10 per cent. payment of the pension.

Mayor Davidson took the stand the municipalities should be relieved of their share in the pension costs now that the Dominion Government had assumed 75 per cent. of the cost, leaving the provincial governments to pay only 15 per cent. He thought the provincial government should take over the municipalities' 10 per cent. share.

May Spread Tax Payment

Proposed Bill Would Further Relieve Debtors In Alberta

Edmonton, Alberta.—Designed to further relieve Alberta debtors by spreading payment of tax arrears over a six-year period, a bill will be introduced in the Alberta legislature shortly. The bill provides for the consolidation of payment of all instalments of certain local taxes.

The Alberta bill provides that when a taxpayer is in arrears for more than one year in respect of land taxes due the municipality, or for school taxes, he may enter into a consolidation agreement whereby the arrears would be paid by instalments over a period of six years.

Favors the Dole

Direct Relief the Most Economical Plan, Says Senator

Ottawa, Ont.—Cost of providing direct relief had been found to be of all proportion to the cost of direct relief, Lt. Hon. Arthur Meighen, government leader in the senate, told the members of the Upper Chamber. The relief measure recently passed by the Commons was under review.

Public Building Senator Meighen said, had been erected to meet present and future needs. No feasible means of giving work to the extent of the present unemployment had been devised. The measure was passed without amendment.

Soviet Delegations

Moscow, Russia.—Although there has been a serious food shortage for some time in many regions of Soviet Russia, official quarters vigorously denied Thursday reports published abroad the nation is suffering from famine. A statement thousands were dying of starvation was branded as "nonsensical."

Local and General Items

Milt Congdon has purchased the Corbett residence.

Blairmore's council meetings cannot yet be classed as unlawful assemblies.

The annual dance of the Bellevue Tennis club will be held at Bellevue Friday, April the 21st.

Mrs. W. Bond returned to Lethbridge today, after spending several days here with her husband.

It looks as if the United States people would soon have something to carry in their hip pockets, at least.

"Red" Dutton and Paul Thompson, big hockey moguls, passed through Blairmore on Monday, enroute from Calgary to Spokane by motor.

The house of William Patterson is being moved from Eighth Avenue south to a new location on Stuart Street, near the Fred Green mansion.

Police are determined to put a stop to the congregation of loafers along our town sidewalks, and today notices to that effect have been posted.

Remember the Easter dance to be held under the auspices of the local Columbus club on Monday, April the 17th.

Blairmore has adopted the business tax system, and about sixty firms or individuals received their ass. notices on Saturday last.

Mrs. Gwilym Evans and little daughter, of Saunders, are visiting with her parents here, Mr. and Mrs. W. McVey.

Mr. C. J. Tompkins, is able to be around today, after being confined to his home for about two weeks as a result of injuries sustained in a fall.

Mrs. Nora Wiswell and son Byron, arrived here by auto on Tuesday evening from Deary, Idaho, to attend the funeral of Mrs. Oliver. They will likely return home on Saturday.

The regular meeting of Crows' Nest Chapter I.O.D.E. will be held at the home of Mrs. E. McDonald on Monday evening, April 10th, at 7:30. All members are requested to attend.

When relief workers met to consider appeals for better pay, etc., at Newcastle, Nova Scotia, they did not permit the assistance or influence of the radicals.

A farewell dance was held in the community hall at Saunders on March the 20th, in honor of Mr. F. Bennington, who leaves for Blairmore, where he will spend the summer with his wife's parents.

Another amusing error has occurred in an Alberta weekly newspaper. An article referring to a Harvey Murphy stump speech carried a heading "Gas on the Stomach." Very likely red gas at that.

The Nanton town council has decreed that half the town lands become summerfallowed this year, and half sown to brome grass. A similar suggestion might be a bright idea in Blairmore, were it not for the danger of some of the unemployed "wanting" to work (?)

Mrs. Jemima Chilton, widow of the late J. R. Chilton, died at the home of her son, W. J. Chilton, at Clareholm on March the 24th, aged 73 years. It will be remembered that in Christmas week, 1927, Mr. and Mrs. Chilton started to visit their daughter at Walla Walla, Washington, when Mr. Chilton took sick on the train and died in Blairmore.

Gordon Steeves claims that a new fish bait will be available this season. It comprises an artificial grasshopper, operated by an electric battery held in the fisherman's pocket. When the fish approaches to bite, a button on the reel is pressed; the grasshopper kicks out with both hind legs, stuns the fish, which is immediately gathered in with a landing net. Hooks are not necessary.

Man's Heart Stopped, Stomach in Cance

W. L. Adamson stopped with his heart often missed beats after eating. Adlerka rid him of all gas, and now he eats anything and feels fine. Blairmore Pharmacy.

NOTICE TO CREDITORS AND CLAIMANTS

In the Estate of TOM SCIARETTA, late of Hillcrest in the Province of Alberta, minor, deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named Tom Sciarretta, who died on January 15, 1933, are required to file with the Official Guardian, Edmonton, Alberta, or with the undersigned Solicitor, the 6th day of May, 1933, a full statement of the value of their claims and of any securities held by them, and that after that date the Official Guardian, aforesaid, will distribute among the parties entitled thereto, having regard only to the claims of which notice has been so filed, and which have been brought to his knowledge.

Dated this 31st day of March, 1933.

J. E. GILLIS,

Solicitor, for the Official Guardian,

Administrator with the will,

Blairmore, Alberta.

A flock of wild geese passed over Blairmore on Tuesday morning.

A grand Easter dance is to be held in the community hall at Lundbreck on the night of April the 17th.

Maston Sexsmith, livestock inspec-

tor, died at Calgary this week, aged fifty-six.

The question is asked: How can Gaston Basille be covered by a bond company?

The "Band-Its" orchestra will play

for a dance at Corbin on the night of the 21st.

cade's tussle with prohibition.

Rumor has it that local communists

intend sending a delegate to all for-

ign countries to procure correct in-

terpretation of their motto "Demand"

in all languages.

A man in a local restaurant ordered

some sausages. After a delay of

considerable time, he asked the wait-

er how long they would be. "About

four inches," the waiter replied.

Following a world-record hockey

game, in which it took the Toronto

Maple Leafs 164 minutes to defeat

the Boston Bruins, the Leafs went

down to defeat, 5-1, against the fresh

New York Rangers.

Tragedy piled on tragedy when the

nonrigid airship J-S, in attempting to

land after searching for survivors of

the Akron disaster, was borne a half

mile to sea and crashed into the

ocean, with a loss of two of her crew

of seven.

V. C. French, of the Wetaskiwin

Times, is receiving hearty congra-

ulations of his confreres in the new-

paper game, and of his fellow citi-

zens, on the 32nd anniversary of his

continuous ownership and publication

of the Times. He established the

paper March 20, 1901.

At the conclusion of the evening

service at Blairmore United church

on Sunday, April 9th, there will be

held a congregational meeting for the

purpose of considering the calling of

a minister. It shall be the duty of the

members and adherents to decide

whether the present minister, Rev. A.

E. Larke, who is supplying to June

30th, shall be extended a call to re-

main, or whether another minister

shall be called.
